

Health and Safety Continuous Improvement Plan

Type:	POLICY	Revision:	01
Owner:	BRL	Document Name:	HSPOL-004
Status:	Current – Nov 2014	Review Date:	February 01, 2018
Effective Date:	01 January 2015	Total Pages:	2

Purpose:

To help meet our commitment to our Health and Safety Policy we understand that the program needs to be broken down into goals. These goals will be set annually so that Bernard Rochefort Ltd. maintains continuous growth in its Health & Safety program and posted in conspicuous places. They will be set in an annual safety meeting by the employer after discussions with employees.

The following will outline our Health and Safety goals to be met for the year 2018:

Goal	Policy or Communication Developed (Date)	Communicated to workers or training (Date)	Goal Tracking (how we measure success)	Completion Date &/or Follow-up periods	Responsibility (Key player is indicated first with supportive roles following)

Health and Safety Continuous Improvement Plan

Maintenance:

Once goals have been completed they must not be forgotten, hence, all goals must be maintained over the life of the safety program. Annual reviews conducted by BRL Management and with assistance of the H&S Coordinator, will contain goals from previous years to ensure that these are maintained.

Approval & Acknowledgement:

A handwritten signature in blue ink, consisting of several overlapping loops and a long horizontal stroke extending to the right.

Rhéaume Rochefort
